

## Concept Caskets merchandise reception guide

### MERCHANDISE ON PALLETS

**IMPORTANT : CUT CELLOPHANE ONLY IF THE PALLET IS ON AN EVEN SURFACE.**

#### STEPS TO UNWRAP THE MATERIAL

1. Make sure the pallet is on an even surface.
2. Cut the nylon around the pallet and the caskets.
3. Cut the cellophane vertically (from bottom up) between the two first caskets.

#### INFORMATION

Each pallet contains 4 or 5 caskets  
The padding (protection) at the foot of the caskets serve to protect and maintain caskets in a vertical position.

### TRANSPORTATION WITHOUT PALLETS

---

TRANSPORTATION WITHOUT PALLETS INVOLVES A DELIVERY OF 18 CASKETS OR MORE.

---

#### STEPS TO UNWRAP THE MATERIAL

---

1. Remove air from the protection bags, leaving them in their respective place. (We strongly suggest you deflate using opening dedicated to this use. This way you will be able to recuperate or resell the bags).
2. Start by taking out caskets found in the middle row.
3. Remove deflated bags.
4. Take out caskets from the exterior rows.

---

#### TIPS

---

Cut honeycomb cardboard in pieces of 8 inches and use 2 per casket for delivery purposes. Funeral homes will be able to use them as a support to position the body of the deceased.
